

Artificial Recharge - Issues and Future	p. 2
EUREAU Survey on Artificial Recharge	p. 11
Ground Water Storage in Southern California	p. 20
Artificial Recharge and Water Supply in the Netherlands: State of the Art and Future Trends	p. 28
Artificial Recharge in the Meijendel Dunes: Forty Years of Experience	p. 40
Economic and Institutional Aspects of the High Plains States Groundwater Recharge Demonstration Program	p. 52
Influencing Ground Water by Dilution	p. 62
Salt Lake County Water Recharge Project	p. 71
Deep Bedrock Well Injection Near Denver, Colorado	p. 81
Huron Project of the High Plains States Groundwater Demonstration Program	p. 91
Equilibrium Modeling of Chemical Interactions at the Huron Recharge Project	p. 101
Modeling Artificial Recharge to a Glacial Aquifer	p. 109
Enhanced Artificial Recharge Utilizing Inflatable Rubber Dams	p. 120
A Large Aquifer Storage Facility for the Phoenix Area	p. 129
Use of Hydrogeologic Data in Recharge Pond Design	p. 139
Design and Operational Aspects of Recharge Dams in the Sultanate of Oman	p. 149
Feasibility of Recharge by Surface Spreading	p. 159
Artificial Recharge of Ground Water in the Maaskant Area	p. 168
The Use of Seepage Trenches for Artificial Ground Water Recharge	p. 177
Al Khawd Recharge Dam Preliminary Conclusions on First Years of Operation	p. 188
Ecological Engineering and Artificial Recharge at Groot Berkheide	p. 198
Borehole Recharge - A Drought Management Strategy in N. London, UK	p. 210
Recharge Well Technology at the Water Campus Project, Scottsdale, Arizona	p. 220
Rational Ground Water Reservoir Management: The Role of Artificial Recharge	p. 231
Preliminary Results of Aquifer Storage and Recovery Well Testing City of Pasadena, California	p. 241
Deep Well Artificial Recharge Beneath A Rural Residential Planned Development, Fresno County, California	p. 248
Deep Well Infiltration in the North-Holland Dune Area	p. 258
In Situ Filtration of Untreated Water for Injection	p. 270
Seasonal Storage of Reclaimed Water and Surface Water in Brackish Aquifers Using Aquifer Storage Recovery (ASR) Wells	p. 282
Aquifer Storage and Recovery Allows for Cost Effective Development of a Regional Public Water Supply System in a Water Short Area	p. 299
Aquifer Storage and Recovery in Southeast Florida	p. 311
Artificial Recharge in New Jersey's Atlantic Coastal Plain	p. 318
Aquifer Storage and Recovery at the Centennial Water and Sanitation District, Highlands Ranch, Colorado	p. 324
New Downhole Valve for Aquifer Storage and Recovery	p. 334
Design, Construction, and Operation of a Surface Recharge Facility for the Purpose of Reusing Secondary Effluent in an arid Climate, Tucson, AZ U.S.A.	p. 342

Operation of Recharge Basin Systems: An Optimal Control Approach	p. 352
Wetlands Treatment and Artificial Recharge of Colorado River Water In Avondale, Arizona	p. 362
On-Site Wastewater Nitrogen Removal	p. 372
Suitability of Wastewater Effluents to Recharge Groundwater Aquifers in Saudi Arabia	p. 376
Doc Characterization of Reclaimed Wastewater	p. 386
The Town of Gilbert's Operational Experience with Recharge and Recovery of Reclaimed Water	p. 396
Conjunctive Use Plan for the Colton and Riverside Groundwater Basins	p. 406
Public Perceptions in Groundwater Recharge	p. 417
Stormwater Injection Effects on Groundwater Quality in South Australia	p. 426
Experience In Injecting Storm Water into Aquifers to Enhance Irrigation Water Supplies in South Australia	p. 436
Artificial Recharge of the Santa Marta Aquifer, Colombia	p. 446
Evaluation of the Recharge Techniques Adopted for Conjunctive Use of Surface and Groundwater in the State of Haryana (India)	p. 455
A Case Study on Artificial Recharge of Groundwater into the Coastal Aquifer in Longkou, China	p. 464
Strategic Evaluation of remediation of Seawater Intrusion by Wastewater Recharge in Kaohsiung Coastal Area in Taiwan	p. 471
Microfiltration: A Recharge Treatment Alternative	p. 481
Integrated Management of Alluvial Ground Water	p. 492
Water Quality Aspects of Groundwater Recharge: Chemical Characteristics of Recharge Waters and Long-Term Liabilities of Recharge Projects	p. 502
Effluent Pretreatment and Its Effects on Water Quality During Soil Aquifer Treatment	p. 512
Pathogen Removal Beneath an Artificial Recharge Basin	p. 519
Field and Laboratory Observations on the Fate of Organics in Sewage Effluent During Soil Aquifer Treatment	p. 529
Manganese in Recovered Water from an ASR Well	p. 539
Artificial Ground-Water Recharge in Las Vegas Valley, Clark County, Nevada: Storing Today, Treating Tomorrow?	p. 548
Behavior of Phosphate in Eutrophic Surface Water upon Artificial Recharge in the Western Netherlands	p. 558
Artificial Recharge and Quality Variation in Shanghai	p. 568
Controlling Iron Concentrations in the Recovered Water from Aquifer Storage and Recovery (ASR) Wells	p. 574
Doc Characterization of Reclaimed Wastewater	p. 558
Adsorption of Petrochemicals Unto Premoistened Sandy Soils	p. 598
Total Dissolved Solids and Groundwater Quality Protection	p. 612
Artificial Recharge in Las Vegas Valley, Clark County, Nevada - Big Plans for Big Panic?	p. 620
The Optimization of Sprading Ground Operations	p. 630
Mod-Cad, The Interface Between Modflow and Geographic Information System (GIS) Software Package As Applied to Polk County, Florida	p. 640

Recharging Effects of the New Aswan Dam Lake on the Ground Water Aquifers	p. 649
Potential Use of Artificial Recharge in Jordan Rainfall Runoff and Infiltration Model	p. 656
Management of a Small Ground Water Reservoir by Recharge of Water From a Surface Reservoir	p. 661
Artificial Ground-Water Recharge in Las Vegas Valley, Clark County, Nevada: Model Prediction - "No Cone of Depression Here!"	p. 669
Efficient Use of Artificial Recharge in Groundwater Pump and Treat Remediation Systems	p. 679
Experimental and Theoretical Study on Heat Mechanism of Ground Water Flow	p. 688
Artificial Recharge by Wells at the Amsterdam Water Supply	p. 700
Estimation of Injection Well Clogging With the Modified Fouling Index (MFI)	p. 710
An Evaluation of Injection Well Plugging From a Ground-Water Heat Pump System in Southeastern North Dakota	p. 720
100 Years of Stormwater Recharge: Mount Gambier, South Australia	p. 732
Basalt Geology and Recharge by Percolation Tanks	p. 742
Artificial Recharge to Israel's Carbonate Aquifer	p. 751
Artificial Recharge of Ground Water for All Purposes?	p. 761
Use of Percolation Tanks in Recharge Augmentation in Semi-Arid Hard Rock Terrain in Western India	p. 770
Borehole Injection Studies in Deccan Trap Basalts Near Nagpur	p. 775
Lessons From Recharge Experiments in Kuwait	p. 790
Infiltration Characteristics and Soil Moisture Variability in Sand Dune Area	p. 800
Estimation and Possible Utilization of Moisture in Sand Dunes	p. 810
Artificial Recharge of Ground Water in Case of Yamagata City, Japan	p. 820
Artificial Recharge of Groundwater in Punjab India	p. 831
"Ralegan Sindi Watershed" A Case Study of Artificial Recharge of Ground Water	p. 839
Artificial Recharge in Four Water Plants in Sweden	p. 848
On Recharging Ground Water in the Plain Near Venice	p. 858
The Artificial Recharge of Underground Aquifer of The Idice Torrent in The Province of Bologna (Italy)	p. 866
Development and Application of the City of Cocoa Aquifer Storage and Recovery System	p. 878
Aquifer Recharge Modeling for The Reedy Creek Improvement District	p. 888
Rapid Infiltration Basin Operation and Maintenance	p. 898
Subject Index	p. 907
Author Index	p. 911
